

My comment is directed toward the LPFM option in letting go of the California based Airl Christian Rock Radio Station in my area. Airl is absolutely the most positive influence on everyone of all ages on the radio. Every single person would be affected negatively if LPFM were to replace our Airl station. I look forward to getting into my car and listening to the radio every day because it's amazing music and actually very influential to me and it has meaning in my life. Please do not take away my Airl!! (The Airl I listen to is stationed in Pocola, OK.) Thank you very much concerning my comment. I hope you make the right decision!!
